Russian Admiralty Seem Satisfied With Rojestvensky.

RUMOR OF A BATTLE IS DENIED

Russian Paper Criticises Attitude of Certain People of Czar's Domain. Reports from Tokio Tell Position of Armies in Manchuria.

St. Petersburg, April 14—4:23 p. m.—The admiralty has not received any dispatches recently from Vice Admiral Rojestvensky.

The officials say that all talk of the emergency of any of the interned Russian warships to join Rojestvensky's squadron is pure nonsense.

Much satisfaction and admiration are expressed in naval circles at the bold, direct manner in which Rojestvensky is carrying out the objects of his voyage.

Map Showing Anambas Islands.

The attitude of indifference in certain quarters of society as to the outcome of the naval battle is arousing criticism and Prince Ouktomsky in his newspaper, The Dawn, today takes society to task for its unpatriotic, careless attitude.

Tokio, April 14.—3 p. m.—The following anouncement was made today:

"Our force advancing eastward via the Fushun and Hailung road encountered and defeated the enemy on the morning of the 12th at Erhhoulu, 7 miles east of Yingpan. Our force then ocupied Tsangshih about 19 miles east of Yingpan. The enemy in retreating toward Hailung fought at every step. The enemy on the Kirin road has gradually retreated since the 11th, a portion of this force still remaining to bar the passage of the Yushu river.

"No change has occurred in the Changtu or Fuhkmen districts, except occasional cavalry skirmishes."

Rumor of Battle Unfounded.

Tokio, April 14.—Noon.—The naval department announces the report of a naval engagement recently off Saigan to be unfounded.

Russian Hospital Ship in Port.

Chicago, April 15.—A dispatch received on Thureday by the Chicago Daily News from its correspondent at Saigon, said:

"Rojestvnsky's hospital ship here Wednesday night to take on board provisions, coal and medicines. It will leave Thursday at midday to rejoin the main suadron."

No mention was made of wounded men on board this ship.

Raleigh's Destination Unknown.

Labun, British Borneo, April 15.—The United States cruiser Raleigh has sailed northward. Her destination is unknown.

Probable Location of Squadron.

Berlin, April 15.—Admiral Rojestvensky squadron is believed by the intelligence given by the German navy department to be lying off the Cuyos islands, 80 miles south of Mindoro, Philippine islands, re-coaling and preparing for the last stage of its long voyage.

Although these islands belong to the United States, they have fine anchorages outside the three mile limit with hard bottom at 20 to 25 fathoms.

The German navy department received in a telegram today from one of the East Indian ports an indication that the Russians which off the southern end of Cochin China April 11 changed their course and headed on a course which would bring them to the Cuyos islands in the northern part of the Sulu Sea, 800 miles distant, in four days at the rate of 8 knots an hour.

The City islands lay technically in such a position that the approaches can easily be watched by the Russian scouts. Three cruisers, it was added, had been beached, presumbaly for a diversion on the the coasts of Japan probably in the hope of calling off Admiral Togo in pursuit.

NEWS OF CITY AND COUNTY CONDENSED

Curtis Baird returned yesterday to Santa Fe, after a brief visit to this city. Mr. Baird is employed as a sawyer in the mill of E. J. Baird at Santa Fe.

Mrs. Truss Denby has returned from Columbus, Ga., where she has been to attend the funeral of her sister-in-law, Mrs. E. L. Waterbury, the death of whom occurred recently. Little Miss Eugene Waterbury, daughter of the deceased, accompanied Mrs. Denby, and will make her future home here.

Ernest Harrod, formerly of this city, but for the past two years a resident of Miami, who has been visiting friends here for the past few days, expects to make his departure tomorrow for Panama, via New Orleans. Mr. Harrod is a carpenter by trade, and has secured a lucrative position in Panama.

An ice cream social was held at the North Gainesville Hall last night for the purpose of raising funds to send delegates to Jacksonville upon the occasion of the meeting of the Christian Endeavor society. There was an abundance of fine ice cream which was sold at reasonable prices, and the affair was both a financial and social success.

Mr. and Mrs H F. Spence desire to express through The Sun their profound gratitude to their friends for the many kindnesses extended during the illness and recent death of their son, Ernest. They especially appreciate the elegant donations of flowers, and beg to assure those who were so thoughtful that their kindness shall never be forgotten.

Miss Ennie Edelstein, after eight months pleasantly spent here as the guest of her brothers, Moses and David Edelstein, expects to make her departure today for her home in New York. She will be accompanied as far as Jacksonville by David Edelstein. Miss Edelstein has many friends here among the young people, and all regret to see her leave, but trust she will visit here again next year.

Rev. J. B. Holley, formerly pastor of the First Baptist Church in this city, but now residing at Bamberg, S. C., after a couple of days spent here as the guest of Mr. and Mrs J. E. Wainwright, departed yesterday for Rodman, where today he will fill an appointment. Mr. Holley has many friends here who are always glad to see him, and who regretted that his stay was not of a longer duration. From Rodman he expects to proceed to his home.

Among the business visitors to this city yesterday was Timothy Bailey of Newberry, ex-justice of the peace and one of the most widely known residents of the West End. Mr. Bailey reports Newberry lively just now. The phosphate mines are running on full time and employing a large number of hands, which means that commercially the town is in excellent condition. The farmers have been blessed with favorable conditions, and indications are that the crops will yield prolifically.

The Senate, having cleared its calendar, adjourned until 4 o'clock Monday afternoon.

Brown-Baskin Contest.

No one need look for a speedy termination of the Brown-Baskin contest for the seat of the Twentieth District in the Senate. The Senate committee on privileges and elections, to whom the matter has been referred, has held two sessions. At the first, which was held behind closed doors, Mr. Zewadski, for Mr. Baskin, presented his side of the case. Mr. Brown looked after his own interests. At the second sitting of the committee it was decided to ask the consent of the Senate to allow the committee to send for persons and papers in the case. The request was granted. It looks now as though the contest may be long drawn out. Mr. Brown holds the seat.

To accomplish the advancement of this measure Mr. Harvell of Santa Rosa withdrew his bill of like purport. Under waiver of the rules the bill was read the third time and passed 56 to 0.

Mr. Wells' bill, to provide for the registration of all county warrants by the county treasurer, when not paid at presentation, and for payment of all such warrants in consecutive order, and for the payment of interest thereon, was killed by indefinite postponement.

By Mr. Crawford of Orange—To regulate impounding of cattle and other domestic animals in incorporated cities and towns.

By Mr. Wartman of Marion—Relating to pleading and practice.

By Mr. Wall of Putnam—To control, manage and maintain certain educational institutions of this State. This bill provides a board of control of fifteen to manage and direct the State aid colleges, and does away with separate boards.

By Mr. Wells of Hillsboro—To prohibit shooting of live pigeons, fowl or other birds.

North Gainesville Meeting.

From Friday's Daily Sun.

The citizens of North Gainesville held a meeting at North Gainesville Hall last night to discuss the proposed new charter of the city of Gainesville, which is designed to embrace a territory of one and a half miles square in each direction, and which includes the territory of North Gainesville.

It will be remembered that on Monday evening there was held a meeting of the citizens of that progressive burg, when Mayor W. R. Thomas and Attorney Robert E. Davis, in behalf of the movement, addressed the meeting and discussed the benefits to be derived to the people by the passage of this charter It was decided at that meeting to adjourn until Thursday evening, when the charter would be taken up, read by sections and discussed by the people of North Gainesville, and the meeting was held last night for that purpose.

There are a great many in favor of annexation to the city of Gainesville by this charter act, while others are opposed, feeling that they will be imposed upon in the matter of taxes, the bonded indebtedness, etc. They have been assured, however, that they will not be required to assume a dollar of the present bonded indebtedness of the city, which is only $27,000 net on account of the waterworks, and it is believed that the majority will favor eventually the annexation to Gainesville rather than an independent incorporation of that section.

It is rumored that, should North Gainesville incorporate, C. D. Schafer will be the first candidate for mayor. He is one of the finest stone-cutters in the State.

WILL RUN FOR MAYOR.

L. C. Lynch Declares He Will Show People a Thing or Two Next Year.

L. C. Lynch, the defeated candidate for alderman by nine votes in the election of Tuesday, declares that he proposes to show his friends and the people what he can do by running for mayor next year.

"I am frank to admit that my defeat was due entirely to over-confidence," remarked Mr. Lynch, "and I propose next year, if nothing happens to prevent, to announce myself a candidate for mayor, and I will show these people that I can make a run. I will be like the old proverb of the darkey who was on a chase when a rabbit got in the path in front of him. This little animal, notwithstanding his ability to cover ground at a rapid rate, was in the negro's way, when the negro exclaimed, 'Git out de way, rabbit; let somebody git heah what can run.'"

This is the attitude of Mr. Lynch. He has served his city and his constituents faithfully during the past term, and, as he stated, his defeat was due clearly to the fact that his friends were over-confident of his success while others were at work. The city has never had a more deserving or conscientious worker. Mr. Lynch, however, takes his defeat good-naturedly, and is reveling in the consolation that the result was very close.

TALK OF A CONTEST

...ular Nominees Were Defeated, ... Independent Candidates Succeeded in Sweeping the Field. Charge of Fraud May Be Made.

High Springs, April 13 —The much-talked-of special election was pulled off here Tuesday. Times for a while were quite lively, and none the less hostile. For some while in the morning portion of the day the managers seemed to be at a loss about the law governing the same. A small paragraph was read governing elections, and they construed it in great diversified ways. Some contended that a qualified voter would have to have his poll taxes paid on or before the 11th day of March, while others argued that poll taxes for this election were good issued as late as April 8, 1905.

But one of the conservative inspectors advanced the thought that inasmuch as the time according to law had expired March 31, and that the time continued for paying the same until May 1 was simply favored and not law, so the inspector compromised with the two contending factions by recognizing all poll taxes for 1904 that were paid up to April 1, 1905.

The following is the official count: W. G. Holland, 14; B. Dougherty, 34; J. C. LaComt, 41; W. J. Rives, 22; W. Summers, 24; D. A. Demawg, 42.

Three highest are considered duly elected, though there is much talk of a contest. The three securing the least number of tallots are the regular conventional nominees.

An alleged effort was made to perpetrate fraud by some 1904 poll tax receipts being presented which were issued in April and abreviated "Apr," in date line, and in several unsuccessful attempts were made to demolish the "A" or convert it into an "M," the "pr" being left unmolested.

Mr. Setzer, one of the managers, caught on to the trick, and exposed the fraud publicly, for which he was highly commended. These defaced receipts were only prevalent among the colored voters, but it is not conceded that a negro is the author of the scheme.

Captain W. G. Shehee, who is a rheumatic, returned from Hampton Springs this evening, and is in a feeble condition, being absolutely helpless.

Tourists have been returning to their Northern homes for some time.

The Atlantic Coast Line Railway continues to do a rousing freight business in this section.

Miss Pauline Weaver, the recognized belle of High Springs, is visiting relatives in Pensacola this week.

High Springs has had two millinery openings quite recently that would reflect much credit on towns three times the size of this one.

Mrs. R. C. Philpot, who was quite ill last week, is now on the stage of action, to the gratification of her numerous friends.

Col. J. W. Patton, a surveyor of Gainesville, was in the city yesterday. Colonel Patton says he has been surveying land about three miles from the city, down the Santa Fe river, for Mr. Setzer. It is what is known as the old McKinney property, and is said to be very valuable. The land is unusually good for agricultural purposes, and it also contains an immense quantity of phosphate, which can be mined with the least expense of any deposit in the State. The land also has a large acreage of hammock and hardwood, and it is in such quantities that in all probability a saw mill will be established on the place at a distant date.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for lagrippe" say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

THE BEAN MOVEMENT.

Shipments from Webster and Center Hill Will Be Heavy in a Few Days.

C. S. Robertson, traveling solicitor for the Armour Car Lines, has returned from Center Hill, Webster and other points, where he has been in the interest of his lines.

Mr. Robertson states that, while the sections visited are badly in need of rain, the vegetable crops are maturing nicely, and within a short time will be moving heavily. This is especially true of snap beans, the first solid carload of which were shipped Wednesday. The bean average is especially large in the Webster and Center Hill districts, and the growers expect to realize a big thing financially.

The car shipped on Wednesday was the first of the season. It was consigned to New York, and contained some of the finest beans ever seen in the section, which is noted for its fertility.

Mr. Robertson states that there are few melons in the territory visited, but the vegetable acreage is large, and the prospects are that the growers will reap good benefits.

Last Hope Vanished.

When leading physicians said that W. M. Smithart of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for consumption, coughs and colds kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throats or colds; sure preventive of pneumonia. Guaranteed, 50c and $1 00 bottles at all drug stores. Trial bottle free.

He Likes Gainesville.

After a pleasant visit to this city of two weeks George W. Ryan of Indianapolis, Ind., manager of the State Life Insurance Company of Indiana, expects to make his departure today for home.

Mr. Ryan, who is one of the cleverest winter visitors we have had the pleasure of meeting, states that he is delighted with Gainesville and its people and proposes to come again next year for a longer period. "I can say frankly that Gainesville is the best 'country city' I have ever seen, and my travels have been extensive. The town is all that could be asked, the people are clever and hospitable and try to make you feel at home, and, to tell the truth, I am sorry that I have got to leave," he said.

About Rheumatism

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

OLD SORES OFFENSIVE-DANGEROUS

Nothing is more offensive than an old sore that refuses to heal. Patiently, day after day, it is treated and nursed, every salve, powder, etc., that is heard of is tried, but does no good, until the very sight of it grows offensive to the sufferer and he becomes disgusted and morbid. They are not only offensive, but dangerous, because the same germ that produces cancerous ulcers is back of every old sore. The cause is in the blood and as long as it remains the sore will be there and continue to grow worse and more destructive. The fact that thousands of old sores have been cut out and even the bones scraped, and yet they returned, is indisputable evidence that the blood is diseased and responsible for the sore or ulcer. Valuable time is lost in experimenting with external treatments, such as salves, powders, washes, etc., because the germs and poisons in the blood must be removed before a cure can be effected. S. S. S. cleanses and purifies the circulation so that it carries rich new blood to the parts and the sore or ulcer heals permanently. S. S. S. not only removes the germs and poisons, but strengthens the blood and builds up the entire system by stimulating the organs, increasing the appetite and giving energy to the weak, wasted constitution. It is an exhilarating tonic, aids the digestion and puts every part of the body in good healthy condition. Book on the blood, with any medical advice wished, without charge.

Some years ago my blood became poisoned, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again. JOHN W. FUNDIS. The earthquake in India will foot up a total loss of twenty thousand lives. Possibly some one will say that Divine Providence intervened with this method, rather than to see them starve as in the past.

Some people's Christianity seems to be in making others as miserable as they are themselves. A real active worker, who has nothing to do, can keep a whole neighborhood in an uproar. Don't weary yourself in worrying others.

The educational institutions of the State should first be considered in the line of appropriations. These include our State colleges. In regard to a governor's mansion, it is a noticeable fact that there are many States that have managed to exist for a half century or more that have no house for the governor.

The rush of new buildings to completion in Gainesville is surprising. Old houses are torn down and new ones take their place in rapid succession. A man came along one of the residence streets a few days ago and declared he would not have known where he was, there were so many new houses, had he not seen the mail carrier and recognized him.

John Temple Graves says: "I have been preaching incessantly in these letters the necessity for individual thought and activity by individual Democrats." That seems to be the trouble with the Democrats in the North—there is too much "individual thought," and no two think alike. What we want is more concentration of thought, and not let everyone think he knows it all. Stand together and not run away on your individuality so much.

Our lawmakers should themselves stand by the laws they enact, and if they did not there would be general disorder in our legislative bodies. Those who know these laws and rules governing such bodies stated at the outset that Hon. C. M. Brown could hold his seat in the Senate, and it ought to be apparent to all now that he will do so. It is not a matter of friendship to Mr. Brown more than to Mr. Baskin, but simply the law and custom in such cases. The personality of the two gentlemen does not enter into the contest.

OUR PUBLIC SCHOOLS.

The House and Senate at Tallahassee should not waste much time on some of the measures that are brought before them for consideration. Many of them are simply a waste of time to consider and would not avail anything to the State should they become a law. Others may be necessary later on, but are premature at the present time. There is no question of more vital importance to the future of our State and the people who are rearing children within its borders, than that of our public schools. The public schools should come first, as they are the foundation upon which our institutions are builded. No one can appreciate this fact better than those who have grown to manhood and womanhood without enjoying these advantages.

To maintain our schools up to their present high standard requires a vast sum of money, and those who have this work in hand must be zealous and steadfast to the cause. There are many ways of advantageously expending money along this line with great benefit, and while we are earnestly engaged in the work, it is necessary to exercise financial ability in making every dollar go as far as possible.

The uniform tex-book measure, if it becomes a law, and the State and county commissions made up of men named in the bill, would be a great saving to many who have been obliged to pay large sums each year for their children, in many instances the amount being what would seem to those who are in a position to know, as exorbitant.

With the uniform text-books in all our schools, the prices for books at a reasonable figure, and the opportunity of changing old books for new ones by paying a small difference, there will be a relief to the deserving people of Florida of a large sum of money, the benefit in our own county amounting to several thousand dollars.

In speaking on the subject of school books, The Lake City Index says that "two years ago Florida adopted a law providing for county high schools. Under its provisions it is safe to say that $250,000 has been spent for certain books. Pass uniformity, install new books, and you will have a loss to parents, if they are exchanged at the usual rates, of $200,000."

THE NEW CHARTER.

There are always men who oppose any movement to advance the welfare of their own city, and some of them do it through a lack of comprehension of the true facts, while others try to create the impression that they are defending their own fireside and that of their neighbors, and if successful in their wrong impressions would not take objection to being called the hero of the hour.

To think that any city would develop beyond an overgrown village without territory is mere nonsense. The corporate limits of a city can be extended, with fairness, and still being no great burden on the people. It is being done daily in many portions of our land and no one seems to be so over-burdened that law or equity puts a veto on such progress.

Gainesville is fast building on the vacant land within the corporate limits. With the extension of waterworks and electric lights to the suburban portions, the value of property is enhanced. A residence where pure water is close at hand is preferable to one where there is nothing but surface water to drink loaded with malaria and fever germs.

Civilization must advance, and there are some who prefer the primeval forest and object to having their peaceful domain encroached upon. There should be an opportunity given them to step backward, but there should be nothing in the way of growth and advancement.

The tomato crop of Florida this year, says The Tampa Tribune, will be almost equal in value to the orange crop. Ten thousand acres are devoted to tomatoes in this State this year. At an average yield of 300 crates to the acre, which is a low estimate, the tomato crop of the State will be no less than 2,000,000 crates. At a fair return to the grower, this crop will bring into the State nearly as much as the orange crop of last season. The shipments will begin about April 1st, and will last until June 15th.

"JIM CROW" BILL.

A favorable report on the "Jim Crow" bill has been sent to the House at Tallahassee, by the committee to which it was referred, and the fight on this interesting question may now become a heated one.

The bill was presented last week by Representative Avery of Escambia, and it provides that all street railway companies in the State shall provide separate accommodations for white and colored people on their cars. The bill was referred to the house committee on railways and telegraphs and this committee has reported favorably. There was no minority report submitted.

This bill, or one similar, will undoubtedly pass before the Legislature, as sentiment is very strong in this direction, doubtless owing to other "strong" reasons why the white people want such a law.

With Editor McCreary of The Gainesville Daily Sun, Matthews of The Starke Telegraph, Humphries of The Bradentown Herald, Koonce of The Sumter County Times, and Appleyard of The Lake City Index in the Legislature, the "devil" will be to pay when they get back home; but then the State must be served at all hazards.—Levy Times-Democrat.

The biggest land fraud of any has been unearthed in which vast areas of coal land have been acquired from the government at $1 50 instead of $20 an acre as required for such lands by the government. The amounts involved under these frauds are losses to the national irrigation fund, which is derived from the sale of Western public lands.

Late estimates put the next orange crop considerably below one million boxes. A large portion of the bloom which came out fell before opening. Many trees had no bloom at all. The groves in the Southern tier counties of the orange belt show as scant bloom as the groves in the more Northern counties.

The Jacksonville police pension bill in the Legislature is all right. Policemen in that city should not only have a pension, but each officer ought to be supplied with a gatling gun and a Holland submarine boat for diving into some of the places they have to visit while on duty.

COUNCIL WANTS THE NEW CHARTER

That Body Passed Resolutions Asking for Passage of Bill.

BENEFITS TO BE DERIVED

Will Prove of Advantage to Every Resident of Gainesville and Vicinity, Regardless of Avocation, and Council is Anxious for Measure to Pass.

Believing the proposed extension of charter and its privileges to be to the best interests of the city of Gainesville and its people, regardless of avocation, the City Council held a special meeting Friday evening for the purpose of taking some active steps in the matter of urging Senator McCreary and Representatives Rosborough and Tillman to exercise their influence in the Legislature to secure the passage of the bill, and the following resolution was passed unanimously:

"Resolved by the City Council of the City of Gainesville, Fla., That it is the sense of said council that the bill now pending before the Florida Legislature seeking to amend the charter of the said city of Gainesville, and to define its limits, is in the interest of the advancement of our city and should pass:

"Resolved, That our Senator and Representatives in the Legislature are hereby urged to use their endeavors to enact the bill into law."

Upon motion Clerk Dell was instructed to forward copies to the Senator and Representatives of Alachua county, whereupon the meeting adjourned.

The greatest interest was manifested in the meeting, and it was clear that every alderman was in favor of the new charter, because they realized what an advantage it would prove. There was no opposition to the resolution, which was offered by Alderman Benson.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Sold by J. W. McCollum & Co.

Rural Mail Examination.

In compliance with instructions from the United States postoffice department, the examination was held in this city yesterday for rural mail carrier. From Friday's Daily Sun.

Pursuant to the call the council convened last night for the purpose of turning the affairs of the city over to the newly elected council. There was only a slight change, however, only Aldermen Lynch and Doig retiring They were succeeded by Dr. J. Harrison Hodges and H. E. Benson, the latter an ex-member of the council, who has served the city faithfully and efficiently before.

Mayor Thomas, who has been for the past three years at the head of the municipal government, and who was re-elected without opposition at the election of Tuesday, was sworn in by Justice George Colman, who administered the oath in his usual dignified manner. The aldermen and other municipal officers were sworn, when the old council adjourned sine die and the new organization took the city reins.

Alderman Geo. K. Broome was unanimously re-elected chairman, which was a great compliment. Alderman Broome, who is regarded as one of the most conservative officials the city has ever had, has been serving the council in that capacity in a most efficient manner, and his colleagues were determined that he should again fill the president's chair.

After organization the president stated that, inasmuch as every member of the water committee had retired from the council, he would appoint temporarily Aldermen Cushman and Taylor on that committee. The committees will be announced at the first regular meeting in June.

The council adjourned to meet this evening, when resolutions will be passed concerning the proposed charter.

Made in the Golden Sunlight

It is conceded by the highest authorities that the soda cracker contains the life-giving elements of wheat in the best proportions.

This being so, then **Uneeda Biscuit** must at once take first place as the food of the world—a soda cracker, but such a soda cracker! Made by exact science in sunny bakeries so light, bright and clean, that they are a revelation. The flour is tested; the purity of the water is absolutely assured; the very air is filtered,—why even the temperature and moisture of the atmosphere is accurately regulated. The sponge is kneaded by polished paddles, not by hand. Indeed, **Uneeda Biscuit** are only touched once, and then by a pretty girl, from the time the flour leaves the bag until the beautiful package is placed on your table.

You ask why all this work, all this care in the making of a soda cracker? Because the soda cracker is the best of all food and **Uneeda Biscuit** is the most wonderful of all soda crackers. And with all of it the price is only 5¢ a package.

Could Not See The Charter as Suggested by People of Gainesville in a Favorable Light, and Decided to Make a Corporation of Their Own.

At the meeting of the citizens of North Gainesville, called for the purpose of discussing the proposed new charter of the city of Gainesville, it was decided that the charter was not just what the people of that progressive settlement desired, hence a resolution was passed to incorporate North Gainesville separately and distinctly from the charter of the city.

This will mean the organization of a separate municipality entirely independent from the city of Gainesville. It means also that the roadways and streets of North Gainesville will receive no further support from the county, but that the same must be constructed, kept up and repaired by the municipality, by taxation of its residents.

The meeting was well attended, and considerable interest was apparently manifested in the proceedings. Those present declared that the motion to incorporate separately was unanimous, not a single vote having been recorded in the negative.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Yours truly,
W. C. DANIEL.
